DOT 160x17 N SUPERFAST

DOT 160x25 N SUPERFAST

DESKTOP · DOT PEEN MARKING

• Dot peen marking station, autonomous with height regulation and **maximum speed.** Especially designed for companies with a wide **variety of small-sized parts.**

ADVANTAGES

• **Maximum marking speed,** for all kinds of materials and hardnesses up to 62HRC.

• Maximum reliability, **uninterrupted productions, and reduced maintenance costs.**

• Highly robust and long-lasting, thanks to the high quality of its components.

• **Versatility in the size of the pieces to be marked,** thanks to regulation up to 250 mm in height, so you can mark everything from thin sheets to large pieces, including fastening.

• T-slot to facilitate **tool placement.**

• Possibility of anchoring the table to a surface for **greater stability.**

• Machined work surface, guaranteeing **precision** in marking.

• Circular connector to facilitate assembly and disassembly.

CHARACTERISTICS

• 160 by 17 mm marking area.

• 160 by 25 mm marking area.

• Speed up to 16 characters/second.

• Hardness of materials to mark up to 62HRC.

• 6-bar air pressure.

• Table for placing tools and plate stand.

• Column with **height regulation** up to 250 mm

• Different header types, depending on marking needs: pneumatic (N7SB, N14SB) and electric (S2, S6).

• Marking alphanumeric codes, logotypes, DATAMATRIX™, QR codes, etc.

• 2.5-metre robotics wire.

  Other lengths: 5, 10 and 15 metres.

• Connection with **COUTH**smartbox control for integration into production lines (see technical specifications for more information).

• PC edition programme:

  COUTHvector, logotype creation.

  COUTHedit, marking file creation.

  COUTHmonitor, machine status monitoring.

• **COUTHlink.** Library to facilitate connectivity between COUTH smartbox and the production line PLC.
